

# Phishing URL Report

URL: <https://chatgpt.com/c/693af47a-9d64-8324-b20c-ce54b252f690>

Result: SAFE

Risk Score: 67.00%

## Explanation:

### ### Classification Summary

The URL `https://chatgpt.com/c/693af47a-9d64-8324-b20c-ce54b252f690` is considered SAFE due to its secure HTTPS protocol, a well-known domain (chatgpt.com), and a reasonable length. The domain has been active for over four years, indicating stability.

### ### Key Suspicious Features

There are no significant suspicious features. The URL contains no unusual characters or excessive parameters, and it does not appear to be shortened.

### ### Recommendations

1. Always verify the domain name to ensure it matches the expected site.
2. Use a URL scanner to check for potential threats before clicking.
3. Keep your browser and security software updated for better protection.
4. Be cautious of unsolicited links, even from known sources.
